

Company

AS MASS is one of the largest veneer and solid wood distributor in the Baltic region. Product range also includes board materials and design products. Our warehouses are modern and comply with the best storage conditions (air humidity and temperature necessary for storing wood ensures that customers always get high quality materials). We always keep in stocks our bestselling articles and we pay a lot of attention to product and team development trainings. We are partner for many architectural bureaus, furniture producers and designers.

Our goal is to be the best partner to everyone who value high quality wood material. We value the customer, our partners and our team as well the whole company by working together. In our everyday work, we expect positive attitude and kind cheeriness from each another. We working on the principle - everything from one place, while focusing on the customer, keeping our promises and constantly evolving to improve better results every day.

Our warehouses complexes and sales units are located at Kalda Street in Tallinn and in Tartu

Warehouse 1 - Kalda 3b
